Additional Information

- S blade with Luster Guard™ ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect that makes artificial grass look like plastic.
- The ribbed blade also eliminates weak points in the fibers creating unprecedented split resistance.
- S-Blade yarn system takes durability to the next level! It's fiber wear was tested at 50,000 cycles (50,000 cycles=20 yrs of wear). This Lisport test gives a visual indication on how a synthetic turf system will age in time.
- Featuring built-in antimicrobial product protection to inhibit the growth of bacteria, mold, mildew, and reduces odor.
